

## Cold, Hard Light of the Day - Lyrics

You've been turning, turning  
Round in my head all day long  
I'm tryin', tryin'  
To figure out what's goin' on

It's them eyes. Them eyes  
Looked so damn deep in my soul  
& I'm wondrin', wondering  
How you got further than anyone's got before

In the cold hard light of the day  
When the magic of night has faded away  
And the kisses you gave me on the dance hall floor  
Have fallen now, got lost between the boards  
I was on fire, now I feel like a fool  
In the cold hard light of the day

You find gold, find gold  
At the edge of the earth  
Oh you gotta weigh it up  
To see just what it's worth

You said baby you're such a romantic  
I said no you just turn me on  
I've been reliving these moments  
One by glorious one

In the cold hard light of the day  
When the magic of night has faded away  
And the kisses you gave me on the dance hall floor  
Have fallen now and got lost between the boards  
I was on fire, now I feel like a fool  
In the cold hard light of the day

I was on fire, now I feel like a fool  
In the cold hard light of the day
