

## Lemonade

Danni Nicholls

When it rains don't it pour  
When it rains don't it pour  
I can't stand the rain no more  
When it rains don't it pour

But don't the rain make the flowers grow  
Don't the rain make the flowers grow  
I can't stand the rain no more  
Oh but don't the rain make the flowers grow

Fires burned the forest down  
Fires burned the forest down  
The land was scarred for miles around  
Fires burned the forest down

But ashes made a fertile ground  
Ashes made fertile ground  
The land was scarred for miles around  
But ashes made a fertile ground

Ain't it bitter on your tongue  
Babe it's bitter on my tongue  
Let 'em ripen in the sun  
For the fruit will ripen in the sun

When they're ripe make lemonade  
When they're ripe make lemonade  
We'll drink lemonade on sunny days  
Drink lemonade when the skies are grey

Don't the rain make the flowers grow  
Don't ashes make a fertile ground  
Drink lemonade on sunny days  
The world will keep on spinning round

Drink lemonade when the skies are grey  
You keep my world spinning round
