

## Hopeless Romantic

Danni Nicholls

A hopeless romantic that's just what I am  
Oh I've spent years trying to understand  
Why I look for love in all the wrong places  
Seeking my future in far away faces

Out on the road most all the time  
Makes you confused 'bout what's wrong and what's right  
Loneliness leaves you scared and sore  
And a hopeless romantic like me always longing for more

I fell fast and hard at a roadside cafe  
We stole into the wild for seven glorious days  
Now I'm across the other side of the world  
Missing them loving feelings missing that girl

Still I believe in a fairytale love a family  
Stable home someone who's more than enough  
Someone who'll be there through the twilight years  
An who loves me despite my failures and fears

I won't give up on love no it's keeping me going  
Falling down and getting up again keeps me growing  
All these dark days must be part of a plan  
A hopeless romantic that's just what I am
