

Goodnight Moon - Lyrics

Goodnight moon, goodnight stars
Goodnight old broke down cars
I'm going away, I'm leaving soon
Goodnight darlin'
Goodnight moon

I don't know where I'll be
I don't know if I'll see
Out the window of my room
Shining down
Goodnight moon

Thank you babe I'm gonna miss you
When the night comes round
That's when I long to kiss you
When the moon's shining on the ground

Goodnight moon, goodnight stars
Goodnight old broke down cars
I'm going away, I'm leaving soon
Goodnight darlin'
Goodnight moon
